No More Jealous God
They Won't Hurt Us
Ask Mussolini
Dead, for Progress
By Arthur Brisbane

THE LONDON DAILY EXPRESS reports a change in the Bible text, ordered by the international commission on the revision of the Bible. The words "loving kindness and mercy" will replace the word "jealousy" in the familiar passage "For I, the Lord thy God am a jealous God, visiting the sins of the fathers upon the children unto the third and fourth generation."

An additional change would seem necessary, for a God of loving kindness and mercy would hardly visit the sins of wicked fathers, on innocent children.

The description of God as a jealous God has puzzled many believers, unable to imagine jealousy in the character of a ruler omniscient and omnipotent.

The conception went with primitive ideas of God. It was believed by each people that their was the best, most powerful god, but other gods existed, for other peoples.

When lightning came down to start the fire that was proof that Jehovah was more powerful than His rivals, and jealousy was shown in the severe punishment inflicted on those that worshipped the calf of gold, a rival god. The high god was supposed to be close at hand, walking in the garden, in the cool of the evening, enjoying the smell of burnt offerings, animal's flesh roasted, arguing with Job, out of the whirlwind.

Men's idea of God is usually a being much like himself, cruel and jealous among jealous, cruel people, such as the ancient Egyptians, gentile among mid Asiatics, such as produced Buddha.

The Greek philosopher spoke truly "If the camel had a god, their god would have four legs and a hump."

An man's knowledge of the universe expands their conception of divine power changes. A universe that, in our corner of it, measures from side to side 140,000,000 light years, the distance that light travels in 140,000,000 years, going 186,000 miles a second, is a universe too big for god of jealousy, or one anxious to prove his superiority to poor Job, all covered with boils.

Omission of one text in the Bible would have saved untold suffering. It given to men the dreadful, and deadly command "Thou shalt not suffer a witch to live." There are no witches, there never were any, flying through the air on broomsticks. But King James, obeying the command, put to death helpless old women, accused of sailing out to sea through the air on broomsticks, and raising a storm to wreck the king's ship.

Thousands were burned, hanged, drowned, horribly tortured, by those that believed there must be witches, since the Bible said not to let them live. The late President White, of Cornell University, says those eight words, "thou shalt not suffer a witch to live," have caused more needless suffering than any other words ever written.

Monsieur Henry, French chargé d'affaires, assured our State Department that the proposed federation of 38 European nations is not directed against the United States.

This is a comfort. Europe should postpone any union against the United States at least until Europe has said what it owes the United States. A charge from the United States, tied together by the tails and hung over a European clothes line, would not, at first, mean anything but Kilkenny cats.

Besides, it will be time enough to decide what, if anything, the United States of Europe will do to the United States of America after the new combined cats started. Twenty-six Kilkenny cats, tied together by the tails and hung over a European clothes line, would not, at first, mean anything but Kilkenny cats.

However, the suggestion that

HOUSE APPROVES DRY FORCE SHIFT
Washington, May 19 (AP)—President Hoover's first major recommendation for strengthening prohibition enforcement today received final congressional action when the House agreed to the Senate amendments to the Williamson bill to transfer prohibition enforcement to the Justice Department.

BYRD FLIES TO PANAMA MOUNTAIN RESORT
Panama City, Panama, May 19 (AP)—Rear Admiral Richard E. Byrd today took off for David, the mountain resort city which Col. Charles A. Lindbergh visited on his good-will flight in 1928. Accompanying the Antarctic explorer were Capt. Milton H. Bailey, J. R. Hiebrand and Charles J. V. Murphy.

BOARD TO PROBE BOXING HERE
Gov. Allen today signed a resolve creating a special commission to investigate the conduct of professional boxing and wrestling. The commission will consist of seven members, one from the Senate, three from the House and three to be appointed by the governor.

GIRL KILLED IN SPRINGFIELD CRASH
Springfield, May 19 (INS)—Carol Caswell, 10, was instantly killed and her mother, Mrs. Henry W. Caswell, was seriously injured this afternoon when the sedan Mrs. Caswell was driving skidded at East Longmeadow, crashed through a fence and turned over.

CLAIMS EDISON CO. CAN CUT RATES \$2,000,000
The Edison Electric Illuminating Co. could reduce its rates to the extent of \$2,000,000 a year and still pay dividends, Rep. Leo M. Birmingham of Brighton declared on the floor of the House today.

CONFISCATION OF RUM CARS ILLEGAL
Washington, May 19 (AP)—The Supreme Court held today that automobiles seized for illegally transporting liquor cannot be confiscated under the internal revenue laws where prosecution has not begun.

22 PERISH IN CAIRO BLAZE
London, May 19 (INS)—Twenty-two persons are known to be dead as the result of a disastrous fire in the Maufault district of Cairo, according to an Exchange Telegraph dispatch from Cairo.

MILITARY HONORS FOR WASHBURN'S BODY
New York, May 19 (AP)—Full military honors were accorded the body of Albert H. Washburn, late American minister to Austria, who died in Vienna, as it arrived in New York today on the Leviathan.

THREE KILLED IN OIL WELL BLAST
Bucharest, May 19 (INS)—Three persons were killed and four were injured in an oil well explosion today near Ploesti. Damage was \$3,000,000.

10 HURT IN BUS CRASH

FIRST LEG OF GRAF FLIGHT IS ENDED

Arrives in Seville, Spain, Today, and Hops for Pernambuco, Brazil, Tomorrow

Seville, Spain, May 19 (INS)—Nestling gracefully down out of the skies for a 12-hour stop-over before flying across the Atlantic, the German dirigible Graf Zeppelin was anchored to its mooring mast at the air base here today (12:40 p. m. eastern daylight saving time).

After circling the airport for nearly an hour with the immense crowd below waiting to see the ship, the Graf landed at the air base and the landing scene opened.

A picked ground crew of 400 Spanish soldiers met the ship as they landed and immediately the ship's mast was hoisted to the air base. The ship's mast was hoisted to the air base. The ship's mast was hoisted to the air base.

34-HOUR TRIP
Dr. Eckener greeted newspaper correspondents with his customary affability when he reached the ground.

"It was a fine trip," he said. "The trip from Friedrichshafen, home port of the airship, to Seville, took 24 hours and 22 minutes. The journey could have been accomplished in less time, but Dr. Eckener wanted to make a considerable period in order to avoid unfavorable weather in the vicinity of Seville. The scene at the airport following the ship's arrival resembled that of a trans-Atlantic shipping port. Regimes of the passengers disembarking at Seville was hurried down after them by uniformed porters, while that of the passengers who have booked for the ocean crossing was placed in the air ship's interior in its stead.

Six of the 22 who made the trip

Arrives to Find Mother Dead in Fire

Miss Margaret Doherty, who hurried home in response to a summons, found her aged mother, Mrs. Sarah Doherty, dead at 21 Moore st., East Boston.

House in which Mrs. Doherty, 80, suffocated during a fire in her apartment. She died in the arms of her son, who had arrived with the firemen and battled his way through the smoke. (Staff photos.)

Zeppelin Eludes Three Tempests

At the same time we buckled into what Dr. Eckener, the Graf's commander, called a "thunder squall." At one time there were four "thunder squalls" around the ship. The manner in which Dr. Eckener wiggled the Graf through and

MOTHER, 80, DIES IN FIRE

Overcome by smoke and fire of unidentified cause in her apartment, 21 Moore st., East Boston, Mrs. Sarah Doherty, 80, died in the arms of her son today, after he had fought his way to her side.

Alone in the third floor apartment, the aged woman struggled to the door and collapsed just as her son Donald, ran up the smoke-filled stairway to her aid.

Lifted from the floor by her son, Mrs. Doherty opened her eyes, murmured his name and then breathed her last. At the East Boston Relief Hospital she was pronounced dead.

Donald Doherty is married and lives in Everett, but has visited his mother each day at the Moore st. apartment where she kept house for her daughter, Margaret, employed in a Boston department store.

Through some manner as yet undetermined, a fire was started in the kitchen where Mrs. Doherty was preparing lunch. Passerby saw smoke and turned in an alarm. Donald Doherty happened to arrive at the same time as the firemen and raced upstairs to find his mother, apparently unconscious, in the doorway of the apartment.

The fire was blazing in the kitchen, and clouds of smoke filled the house. The blaze was extinguished with damage estimated at \$1000.

BOSTON N. Y. AUTO SKIDS AND HITS TRUCK

Victims of Accident Are Taken to Hospitals in Springfield and Ludlow

Wilbraham, May 19 (AP)—Ten persons were injured, several of them seriously, shortly after noon today when a heavy Boston-New York bus skidded on the wet pavement here, crashed into a truck at the side of the road and overturned.

The injured were rushed to hospitals in Ludlow and Springfield.

In the Ludlow hospital are Mrs. Nellie Milliken, 60, New York city, and Miss Margaret Stewart, New York city, both suffering from severe injuries. Mrs. Milliken from internal injuries.

In the Springfield hospital, Springfield, are Doris Plummer, 19, of Keary, N. J.; Miss Isaac Negrow, 78, of Wooner, O.; and Mrs. Mary Hartman, also of Wooner.

Mrs. Negrow is most seriously hurt, with broken ribs and possible internal injuries.

John H. McCandless of Boston, driver of the bus, escaped injury by leaping at the moment of the impact.

Flynn, Dempsey's Backer, Dead in N. Y.
New York, May 19 (INS)—Leo P. Flynn, boxing manager and leader of Jack Dempsey's famous "cutting out" which ended in his defeat by Gene Tunney in Chicago, died today. Flynn caught cold on the golf links a week ago and he developed into pneumonia. For the past few days, doctors were in an attempt to save his life.

Flynn's home town was Providence, R. I. The funeral will be held there Thursday.

Prince Plans Three Air Trips to Wales
London, May 19 (AP)—The Prince of Wales will make three visits by air to Wales, where he bears Wednesday he will fly from London to Cardiff to end an extension of the official visit.

On July 23, he will visit Carnarvon for the Royal Welsh Agricultural Society's exhibition.

THE GRAF OFF COURSE AFTER PASSING GB STAR

ZEPEL IS READY FOR LONG HOP TO BRAZIL TOMORROW

Continued from First Page

between them, first heading this way, and then that way, evoked the admiration of these passengers who realized the difficulty of maneuvering the huge ship, which of course those aboard for the first time didn't.

Winds Cut Speed Reach Seville Today

Dr. Eckener ordered the wireless antenna down in Seville. Despite this there was a constant crackling in the wireless room. To me, who has been through other such situations aboard the Graf, Dr. Eckener's navigation was a delight to watch. None of the passengers showed the slightest concern, so great is their confidence in his ability.

Just before I started this dispatch, Dr. Eckener told me that he expects to cover the approximate 1400 miles to Seville by early this evening.

After leaving the French coast and some point west of Marcellus, our route will depend largely upon the weather reports. Dr. Eckener, however, expects to head for Barcelona, east southward from there to the Pitsanean Islands, and then strike across Spain behind Gibraltar for Seville.

It was 7:30 p. m. (2:35 E. T.), a little more than two hours after we left Friedrichshafen, when the dirigible passed over Basel, Switzerland.

An hour and a half later we sighted Barcelona. Dr. Eckener was 3115 p. m. (7:15 p. m. E. T.) we passed over Lyon on our way down the Rhone Valley.

The Zeppelin's motors were running smoothly all night. The city slipped away beneath us like a waft of smoke.

It took us two hours and 20 minutes to cover the 80 miles from Friedrichshafen to Basel. Just past Basel, Dr. Eckener came into the flying room as he was sitting down to dinner at 9:30 p. m. with a cheer.

Well, we are through that nasty moon. Now there is good weather ahead.

Except for the fact that the ship had been badly buffeted, and that many of the passengers did not know that there had been anything unusual.

When we passed Barcelona we saw the building which had been built there, that had our speed to 10 miles an hour.

"Aboard for Rio" Thrills at Takeoff

"All aboard for North Rio de Janeiro!" That was the shout I heard as the Graf Zeppelin took off from the air at 8:15 p. m. (3:15 a. m. E. T.) yesterday, setting her course toward the Rio de Janeiro. This will bring the dirigible to Seville by this evening.

Just a few minutes before I had walked up the gangplank into the cabin of the great dirigible, I saw toward the Rio de Janeiro. This will bring the dirigible to Seville by this evening.

Just a few minutes before I had walked up the gangplank into the cabin of the great dirigible, I saw toward the Rio de Janeiro. This will bring the dirigible to Seville by this evening.

GRAF BATTLES Quiz N. Y. Hotel Guests on Sleep Failures

Continued from First Page

Hamilton, N. Y., May 19 (AP)—Better sleep in cities, and especially in hotels, is sought in a new survey by the College University department of psychology.

Beginning today, a 26-story hotel in midtown New York is being given blank on which to furnish their sleeping records.

"Check each of these phrases," the blanks will be, "which describe your sleep last night. More useful than usual, restful. Dreams pleasant, etc. The guest will also be asked to note any disturbing noises."

The guest will be asked on the blank whether he is in New York on business or pleasure.

"The tests we are inaugurating upon the relation of city noises to sleep," said Dr. Donald A. Laird, of the department, "will contribute to the welfare of the city dwellers of this nation."

Bremen Plane Beats Ship New York, May 19 (AP)—An amphibian plane, equipped at sea from the liner Bremen today with 36 pounds of mail, landed off the steamer pier 10 hours before the expected arrival of the ship.

Passengers Get View of Old Spain at Her Best By International News Service. (Copyright, 1930, International News Service.)

On Board Graf Zeppelin, May 19—Favored by the brightest smile of the golden, sunny weather of the southern Spanish is noted, the Graf Zeppelin, en route from Friedrichshafen to Seville, landed along four motors today to avoid arriving at her destination ahead of schedule.

At 4:00 a. m. (3:40 a. m. E. T.) the big air cruiser was idling over Aquilas, making 56 miles per hour with one motor cut out. At this speed the 22 passengers, who were thus in the dining room, had ample time for a leisurely view of the old Spanish town.

Indeed, the view of the Spanish coast occupied so much of the passengers' attention that some of them almost failed to hear the breakfast news. Among these were George Crouse and his sister, Mrs. Mary Durston, both in Syracuse, N. Y., who were the last to take the breakfast table. Dr. Eckener, the commander of the Graf, was first.

Freight Plane Off to Intercept Zeppelin Berlin, May 19 (AP)—A Luftwaffe freight plane of the Junker type W 33, with more than 3000 pounds of mail for South America, was ordered to intercept the Graf Zeppelin before its departure tomorrow from Seville for Pernambuco.

The W 33 is said to be of Seville tonight. The hop was made to demonstrate how cooperation can be effected between airplane and dirigible type ships to facilitate cargo deliveries.

One Dead, Nine Hurt in Penn. Train Crash Philadelphia, May 19 (AP)—One man was killed and nine persons, including a woman, were injured when a Pennsylvania Railroad passenger train struck a work train north of Lancaster station, here today. The man killed was Alexander Hager, 66, of Philadelphia, engineer of the passenger train.

THE PAST WITH A FUTURE

By CAPT. J. H. GOSSE
United States Navy

The London treaty will have on the new construction canceled or postponed:

- 6-inch gun cruisers—30,000 tons
- Capital ship—14,000 tons
- (possibly)—14,000 tons
- Destroyer—1,000 tons
- Submarine—2,000 tons

This treaty is hailed as a great economy measure because it postpones capital ship replacement for at least five years.

In reality it saves nothing for certain as we are not required to replace any of the capital ships provided for by the Washington treaty and no one expects that we would replace all of them.

The right to replace them though might become very valuable and costs us nothing.

The treaty would require us to give up this right until 1937 and to scrap three capital ships which are valuable units already in the line.

NOTHING SAVED

So much for economy but the treaty also involves some expense unless we desire to build a new fleet. While we lack modern destroyers we have a considerable aggregate of destroyer strength.

The same applies to submarines. The Japanese in submarine strength are well ahead of us.

The new treaty would cost us \$100,000,000 for the fleet it requires us to cancel five 6-inch gun cruisers already authorized.

It saves nothing for a certainty; it does not even definitely postpone anything for unless other powers build new capital ships, which they cannot afford.

EXPENSE INVOLVED

The increased restriction on aircraft carriers would be a serious saving because it is not expected that improved carriers will be constructed during peace time.

The proposed changes in cruisers would involve considerable additional expense by reason of our present program.

(This is the result of a series of articles by Capt. Goss, and the naval pact recently signed in London. The 19th article will appear in our early issue of this newspaper.)

U. S. TO OPEN LOCALS IN LIQUOR WAR

Washington, May 19.—The necessity of establishing a system of local jails throughout the country and short-time offenders serving the prohibition act today faced the federal government.

The prohibition has filled local institutions to capacity, and numerous cities are refusing to take any more federal prisoners.

Secretary of State, made known that the federal government is planning to establish a federal jail in Chicago to take care of prohibition law violators convicted in federal courts, and added that other similar institutions will be established in large centers of population.

The move is inspired by the fact that county and municipal jails, which formerly housed some federal offenders at a per-diem board charge to the federal government, are crowded to capacity.

In Detroit notices have been given that no more federal prisoners will be accepted for local jails, and likewise in St. Paul, Minn.

It is likely in many cases that the government proposals formerly used for some other purposes will be converted into plans to meet the emergency.

In some cities, however, it is certain that extensive emergency legislation will be necessary.

These jails, it is explained, are distinct from the federal penitentiaries, which are also in the hands of the federal government. The latter institutions are also hopelessly overcrowded, caring for federal offenders, but the local system of jails to be established concerns only those who are sentenced to a few months.

Cambridge Wood Carver Wins Honor

Washington, May 19 (US)—Adolph Alexander Weinman, designer of the dime and half-dollar coins of the United States mint, also a member of the American Institute of Architects, has been awarded the coveted Craftsman medal of the American Institute of Architects for his distinguished achievement in wood carving.

Presentation of the medal will take place here Thursday when the institute meets in annual convention. The medal is the Craftsman medal of the Institute of Architects.

Mr. Weinman, of Cambridge, Mass., a distinguished achievement in wood carving.

Cambridge Youth Held as Tipsy Driver

A young man, a mile chase along the Newburyport turnpike, John E. Connolly, Jr., of Cambridge, was arrested by a policeman.

Presented to the police, he was charged with driving an automobile while under the influence of liquor.

Tridium for St. Rita Opens Tomorrow

A tridium in honor of St. Rita will open in St. Rita's church, Harrison ave., Roxbury, tomorrow evening.

The speaker will be the Rev. Richard N. McShane of Cambridge, who will speak on Thursday.

THE GYPSIES ARE IN TOWN

Next to a big old man or an ocean liner, we have always longed to interview gypsies. It isn't often the opportunity comes.

Three or four roving bands of Gypsies have recently set up fortune-telling in the city. There are two at the corner of the Hanover and shop better.

The gypsy signs and mystic drapings appeared to our romantic friends. The crowd stood gaping at the windows.

A pain in the lower part of your back can torture you. But not for long. If you know the Bayer Aspirin.

These harmless, pleasant tablets take away the misery of lumbago, rheumatism, neuralgia, headaches, toothaches, and systemic pains of women. Relief comes promptly; it is complete. Genuine Bayer Aspirin, touch the brand. Look for the Bayer cross, this:

AYER'S

Comings & Goings

What Airst Our Puritan Pewter Takes On!

I should have thought this lovely table service would have been given its solid sweep into popularity, and its importance in smart table decoration—but not my dear, dear Anna!

Given it grand airs, and the very latest pewter arrived at Puritan's Apparat Sales.

Flashed this morning with a beautiful hammered silver—It was a new high list! It's gorgeous! And has landed it out of the class of "pewter things" into the class of "silver."

It is something you will be proud to give to your husband, and something you will be proud to receive. Only a practical one can tell this new hammered pewter from silver, and although it does not even approach sterling in cost, it has much of its beauty, and all its wearing quality.

In this new arrival of hammered pewter you will find the quaint little milk jug, with a light cover, and a wicker handle—a wonderful gift for a shut-in. It is \$3.50.

The Water Pitcher, Cocktail Shaker and Coffee Pot are very graceful and generously proportioned, and are priced \$5 each.

Sugar and Creaming Squares trays to match is \$5 complete. There is a bread tray at \$2, and a fruit bowl at \$2.50.

The new low candlesticks (2 light) are very popular just now, and in a most artistic style are \$2.50 each. This new hammered pewter is the first of its kind—at such prices—in Boston.

It will be found at the question of "What to give." You'll find it in the Silverware Dept., street floor of Filene's main building, and in the Gift Shop, cor. Franklin and Hawley Sts.

Where We Had a Taste of Hot Weather

So wouldn't it be a good idea to stock up with some of those attractive little \$3.50 silk dresses to be found at the new Puritan's Apparat Sales?

They come in washable, plain, flannelette, and delicately colored styles. Several of these added to your wardrobe would add to the color of your wearing apparel.

These dresses are immaculate and fresh, all through the hot muggy days of summer. A minimum of \$3.50. Other charming dresses (including party and evening) are priced from \$5.95 up to \$29.50.

Many lovely scarves are on display, priced from \$1.50 up to \$10.00. Scott Furriers, New England's Largest Fur Establishment, 89 Summer St., offer you safe and scientific solid security for your fur investments.

Three Scott Ways of Buying are always at your disposal. You may pay cash in full, or you may buy on credit, or you may buy on installment.

Where's Your Waistline?

These extra pounds on your hips and diaphragm must be abolished, and really there is no easier way than the Scott Way.

Wearing a W. H. Phelps Elastic Corset. It lifts, it supports, it braces, it holds without causing pain.

It bulges at the waistline, and reduces the bulk of the hips, and gives a slender, graceful figure.

It is a slightly different waistline. The corset is made of a soft, elastic material, and is comfortable, and will be made to order, and altered free of charge.

The price is regulated by the length of the corset. Call or write 18 days when you can wear the corset for 18 days.

H. BOY ENDS LIFE AT SEA

New York, May 19 (AP)—As the r De Grasse plowed New York in mid-Atlantic, Jacques Cas, 21-year-old Wilmet Flat, N. youth, dived off the promenade into the sea.

Captain Robert and passengers of the story when the liner dived today. Casard, a passenger, his mother, Mrs. Myra Casard, invited passengers to join in a drink. They declined. Suddenly he dived.

A lifeboat was lowered and a searchlight played for two hours the waves, but the youth was not found. He had been touring Europe with his mother, who said had become depressed over ending business.

at Last He Falls, Flees With \$1000

New York, May 19 (AP)—Every night for several months John all downman at the Newview theater on Broadway, has carried tin box containing the keys to the theater from the ticket window to the cashier inside.

Last night, however, he walked out to the curb, with the tin box containing \$1000, climbed into a taxicab and drove off. The box, empty, and Cash's uniform, were left in the cab.

17 KNOWN DEAD IN HURRICANE

Little Rock, Ark., May 18 (AP)—One section of Arkansas was overrun with flood waters today, another section was recovering from the effects of a tornado which killed at least 17 persons and injured 100 more. In the flooded zone it was estimated 2000 persons were homeless.

Flood waters spread over 50 square miles in the South Arkansas oil fields, inundating many camps and three or four small towns. The Red River bottoms of southeast Arkansas rapidly were being submerged as hundreds of residents fled.

A tornado yesterday struck the village of Elaine, and a large plantation in Phillips County, adjacent to the Mississippi river, killing 17 Negroes and injuring many. Six persons are missing.

A million dollars' worth of damage in the oil industry was estimated by Standard Oil Company of Louisiana officials.

45 Perish in Java Mountain Mud Slide

Samarang, Java, May 19 (AP)—A stream of mud flowing from the side of Mountain Telopoj has wiped out the entire native village of Likasah in the center of Java. Forty-five inhabitants were killed. Only five persons escaped.

DAILY ANTIQUE

No. 99

Here is an interesting example of early American craftsmanship. It is a mahogany arm chair with turned and carved front legs and supports in the style adopted by Huggleswhite.

Strictly speaking, the chair is an adaptation of both Sheraton and Huggleswhite. It dates from about 1790, and is to be seen in the McIntyre room at the Boston Museum of Fine Arts.

In connection with the Massachusetts Tercentenary Year, the Boston Evening American is publishing daily photographs of interesting antiques. Owners of genuine antiques, particularly of Colonial or early American origin or of historic associations are invited to forward photographs and records for publication. If a photograph is not available, the American will send a camera-man to photograph the antique, providing the owner lives in Greater Boston. Address: the "Antique Editor, 5 Winthrop St., Boston."

Former Bike Racer Out for Congress

East Orange, N. J., May 19 (AP)—Frank L. Kramer, idol of bicycle racing fans of years past, announced his candidacy today for Republican nomination as representative of the Ninth congressional district. The post is now held by Franklin W. Fort, candidate for the United States senatorial nomination.

In these advertisements we are telling you how we have "looked at ourselves through our customers' eyes." This is the seventh of a series of ten advertisements telling you what we have found. Here we will answer the question . . . "Why We Maintain WEEI." The next advertisement will appear in two weeks.

WHY WE . . . MAINTAIN WEEI

Radio Station WEEI, maintained and operated by The Edison Electric Illuminating Company of Boston, has been bringing entertainment to thousands of homes for several years.

The Station is self-supporting—its cost being met by the revenue from commercial broadcasts.

Programs are arranged to provide features which are instructive and educational as well as entertaining, and WEEI has won for itself a host of friends by the quality of its broadcasts.

We shall maintain the same standard of programs—in the hope that our customers and friends may continue to enjoy them.

MISS ALTEMUS TO BE BRIDE

Philadelphia, May 13 (AP)—Announcement is made of the engagement of Miss Mary Elizabeth Altemus, widely known horsewoman, to John Hay Whitney of New York, wealthy young turfman.

Miss Altemus, who made her debut in 1923, has won many prizes at horse shows, at which she had ridden Mr. Whitney's horses at times. She is a polo player, like her father, and a dog fancier.

Whitney, who is 24, is the son of the late Payne Whitney and a nephew of Harry Payne Whitney. His father left an estate of more than \$100,000,000.

Heast Gives \$100,000 to University Fund

Atlanta, Ga., May 19 (AP)—Announcement that William Randolph Heast, publisher, had pledged \$100,000 toward a proposed two million dollar endowment for Oglethorpe University was made here today at the 15th annual commencement exercises of the institution.

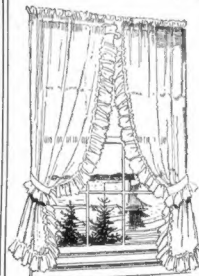

Mr. Heast has long displayed interest in Oglethorpe University. One of his sons recently attended the institution and it awarded Mr. Heast an honorary degree a short time ago.

2-inch hem, 36 inches wide, 2 1/4 yards long.

"THE BIG HOUSE"

Tells What's Wrong With American Prisons

As the days in the dungeon passed, Morgan's crowning urge was revenge.

A vivid story that tears aside the veil of secrecy and lays bare the reasons for revolts—murder and all the other desperate happenings which have made such sensational reading in the newspapers of late.

It tells why prison outbreaks are growing—why ARSON and MURDER are epidemic in prisons—why the men there would rather die fighting than die entombed.

Entertains
Garden Club
Delegates

Mrs. George Lewis, Jr., Will Be
Hostess Tonight at Dinner
for Party of 45

MRS. GEORGE LEWIS, JR., of Sherborn, will be hostess this evening at a dinner of 45 to be given in the Chestnut Hill home of her mother, Mrs. Richard M. Saltonstall, in honor of the visiting delegates to the Junior League Garden Conference. The guests will include, as well as delegates, several members of the Boston Junior League Garden Club. It is expected that Mrs. Thomas Motley, president of the Federation of Garden Clubs, will speak informally at the dinner. The delegates will be the guests of Mrs. Sumner Pinckney at luncheon in Hamilton on Tuesday, the second day of the conference.

ANOTHER VINCENT CLUB girl to join the ranks of the engaged is Miss Margaret Forbes, daughter of Mr. and Mrs. Ralph E. Forbes of Milton, who is to wed Mr. Eric Schroeder, son of the Rev. and Mrs. W. Lawrence Schroeder of Leeds, England. Miss Forbes is a graduate of Radcliffe Academy and will be graduated from Radcliffe College in June. She made her debut in 1925, and is a member of the Junior League Club. Mr. Schroeder, who attended Oxford and is now taking a graduate course at Harvard, is a member of the faculty at Milton Academy.

MR. AND MRS. WILLIAM LLOYD GARRISON, JR., of 63 Sterling st., West, have announced the engagement of their daughter, Miss Faith, to Robert Cushman, Jr., son of Mr. and Mrs. Robert Cushman of No. 31 Vernon st., Boston. Miss Faith is a graduate of Winsor School and is now in the freshman class at Wellesley. Mr. Cushman will be among the graduates of Harvard in June. He is a member of the Yon Club, Hasty Pudding and the Institute of 1776.

Marianne Coleman of St. Louis to Wed
Langeley C. Keyes

ANNOUNCEMENT WAS made today of the engagement of Miss Marianne Coleman, daughter of Mr. and Mrs. Frank B. Coleman, of Boston, to Langeley Carlton Keyes, son of Mr. and Mrs. William Keyes, grandson of Stephen Langeley of Winchester and Falmouth. Miss Coleman is a graduate of Mary Institute in St. Louis in 1924, and made her debut in 1924. She made her debut in

Aided Museum School

Mrs. Edward D. Warren
Mrs. John G. Palfrey

Mrs. Edward D. Warren and Mrs. John G. Palfrey attended a tea recently at the Copley-Plaza for the benefit of the Museum School.

Mrs. Edward D. Warren and Mrs. John G. Palfrey attended a tea recently at the Copley-Plaza for the benefit of the Museum School. Mrs. Palfrey sailed for England on Friday with her daughters, Misses Sarah and Marnie, who are going to play in the tennis matches at Wimbledon.

St. Louis in that year. Mr. Keyes is a graduate of Andover in 1924 and from Harvard in 1926. At Harvard he was a member of the Phi Beta Kappa, the D. U. the Speakers, the Institute of 1776, the D. C. P., and the Hasty Pudding Club. He is a member of the Harvard Club of Boston. At present he is assistant dean of Harvard and assistant in the department of English.

AN ENGAGEMENT OF IMPORTANCE from Longmeadow, Ind., is that of Miss Margaret E. Cogswell, daughter of Dr. Charles R. Cogswell of Gordon (Lafayette) School of Brookline. Miss Cogswell was graduated from Radcliffe College last June, and while an undergraduate was president of the college.

Mrs. S. P. Bremer Will Remain 'Abroad' Until Late Summer
Mrs. S. P. BREMER of Jay st., who sailed about a month ago for Baden, Baden, the famous health and

pleasure resort in the Black Forest in southeastern Germany. Mrs. Bremer plans to be away until late in August when she will return home. The greater part of the time she is in Europe will be spent in Italy. About two weeks ago, her son-in-law and daughter, Dr. and Mrs. Miles P. Baker, (Mabel Bremer), of West Cedar st., sailed for Europe. They do not expect to be at home until September. While abroad, it is their plan to join Mrs. Bremer at some point in their travels.

Players' Club of
Junior League to
Give Burnett Play

THE ANNUAL MEETING and election of officers of the Players' Club of the Junior League took place on Wednesday afternoon, with Mrs. Henry Jackson, Jr., acting as hostess, at her apartment on Huntington st. All of the officers of the club were re-elected to their several positions. Mrs. Jackson is again the chairman of the Players. Mrs. Edward Surdick is treasurer, and Miss Jane Maynard is secretary. At the meeting which was followed by a tea, plans were discussed for the presentation of plays next fall when Junior League activities begin once more. The club has decided to produce "The Racketty Packetty House," by Francis Hodgson Burnett, some time in early December.

MR. REGINALD W. BIRD will be host at his home in Framingham, Cent. Mass., on the farm, at a large luncheon in honor of the exhibition of horses at the Milford Hunt Show on June 8. Mr. Bird will be assisted in entertaining by his daughters, Misses Betty and Patricia. He is acting chairman of the show committee.

THE WEDDING OF MISS MARILYN MOORE daughter of Mr. and Mrs. Edward Small Moore of New York, and Mr. John W. Cross, Jr., which is to take place on May 31, at Westbury, L. I., will interest North Shore residents, as Miss Moore has many friends in this section. She is a granddaughter of Mrs. William H. Moore of Rockport. Her groom, where she has visited many times.

MISS BARBARA PROCTOR has many friends in this section. She is a granddaughter of Mrs. William H. Moore of Rockport. Her groom, where she has visited many times.

THE SUBSCRIPTION DANCE of the past-due group of the Junior League, which is being held at the Copley-Plaza, will be given by Mrs. Henry Jackson, Jr., acting as hostess, at her apartment on Huntington st. All of the officers of the club were re-elected to their several positions. Mrs. Jackson is again the chairman of the Players. Mrs. Edward Surdick is treasurer, and Miss Jane Maynard is secretary. Little Evening Wraps of Large Importance

From Paris Bureau, Boston
Evening American
Paris, May 19.

THE STORY of the new evening wraps can be told in three words—short, shorter, shortest. And the nicest of all are the shortest ones, those little bits of wraps that somehow contrive to enmesh so much charm and chic within their very attenuated folds. There is an irrepressible jauntiness about these coats that is so in keeping with the delights of the dinner, theater, supper and dance programs that are such pleasant diversions on lovely spring nights, and so it is no wonder that they have met with such a warm success.

Color contrast as well as harmony is quite in order this year, with the little wrap of contrasting color to the gown being in the vanguard of popular favor. Clever drapes, large important bows, cowl backs and wide sleeves are some of the features that help to make the little wrap go big, with both the older and the younger generation.

In order to keep the ensemble idea going, short wraps are chosen to harmonize with the wrap, or the color of the wrap is repeated in a touch of trimming strategically placed on the accompanying frock.

The past little evening wrap depicted on today's page is from Augusta Bremer, who has fashioned it of heavy crepe marocain in a delightfully fresh shade of apple green. It is most skillfully draped in cowl effect at the back, and along the sleeve the fullness is gathered into draped folds.

The topmost fold of drapery at the back of the neck forms a sort of loose yoke ending in front in a large loop and scarf-like effect. The coat dips up in a curved line at the front. The model is shown over a black crepe gown with slippers that match the wrap both in color and fabric.

The second sketch is of a lovely frock worn recently at Ciro's. It is made of soft tulle in Wellesley blue and bordered with matching tulle tulle. The back of the frock is bordered with tulle and is interlarded with folds of the tulle. The frock is finished with two little tabs. The double flounces are circular in cut and have irregular lines.

CREPE MAROCAIN in shade of apple green is used in this little evening wrap from Augusta Bremer. The back is of cowl effect. (Sketches in Paris.)

Tribute to Groups

BY NANCY BREWSTER
The Women's Republican Club of Massachusetts will end its year of activities by paying last tribute to those racial groups who have made the political department of the club by inaugurated calendar of "Racial Evenings" tremendously successful. A dinner in their honor, at which they will be the guests of the club, will be held tonight in the clubhouse, preceded by a reception in the Board of Governors of the club and the invited guests. Mrs. Nelson W. Howard, director of the department, has charge of the affair, and her committee will serve in receiving.

A musical under direction of the club music chairman, Mrs. M. H. Guleman, will feature the program. GROUPS HONORED
These groups especially honored will be those American citizens born in Italy, Greece, East India, Albanian, Albanian, Armenia, Syria, Poland, Germany, Denmark, the British Isles and Canada. Next Tuesday the club will celebrate its first Tercentenary event with a program arranged by Mrs. Frederick B. Judd, chairwoman of the Tercentenary committee of the club. It will be held at the clubhouse at 2:30 p. m.

Gen. William Andrews Paw of Salem, vice-president of the Massachusetts Bay Tercentenary, Inc., will present the main thought of the afternoon, his subject being "Early America." The Tercentenary committee of the club sponsors this as an opening program, having elaborate plans for such future programs throughout the summer and fall. Members of the committee serving

with Mrs. Judd are Mrs. Franklin W. Hobbs, Mrs. George W. Perkins, Mrs. Charles Holyoke, Mrs. George W. Knowlton, Mrs. Julius Roberts, Miss Alice R. Cole and Miss Judd.

Federation Spent
\$130,000 in Year
For Welfare Work

CLOSE TO \$130,000 by the cluse of the State Federation of Women's Clubs was expended this past club year. Mrs. Axel A. Packard, retired state president, led the delegates to the convention in Swampscott. The sum was applied by the audience and collected by the aid of the organization. Very few people realize the extent to which club philanthropies and the gigantic proportions of clubwoman's beneficence.

Remitted, the amount went this way: Scholarships, \$12,000; public health, \$12,500; community service, \$12,500; hospital, \$10,732; child welfare, \$11,100; local churches, \$14,644; educational, \$27,000; Red Cross, \$10,000; foreign funds, \$10,000; Helan A. Whitte, fund, \$6,600; miscellaneous, \$10,000; foreign funds, \$10,000.

This in answer to the president's questionnaire added the sum of \$130,000 to the club's charitable list.

Lauds U. S. Women as Becoming 'Best in Feminine World'

"American women is by the way of becoming the finest and most wonderful feminine thing in the world." This was the observation of the wife of the Lord Mayor of Malden, England, Arthur Laver, Clarke, told to club women of Massachusetts in convention at the New Ocean House. And it brought forth a great deal of applause. Expressing her surprise at "such women" in words, as those most heard her in convention hall in Swampscott, Mrs. Clarke was most lavish in her praise of American women, their potentialities, their work and their ability for future success.

Bride Sees Husband
Drown, Kills Self

Richester, Mich., May 15 (AP)—A 25-year-old bride and groom killed herself last night after seeing her husband drown in a lake near Orion, Mich. Mrs. Rachel Long waited for her husband, who was attempting to save a man who had been rescued from a fire, but he was killed. Mrs. Long then killed herself.

country depends upon children. It is all that children are made into until the age of seven. Up to that time they are putty in the hands of mothers. It is broken. Women do that and the country depends upon its womenhood.

It is a wonderful in your country to see the high pedestal on which woman is placed. It is a wonderful in your country to see the high pedestal on which woman is placed. It is a wonderful in your country to see the high pedestal on which woman is placed.

Boston Woman to Wed Army Officer
San Francisco, May 15 (AP)—The engagement of Mrs. Genevieve Morgan of Boston and Hollywood and Capt. Thomas Christy, U.S.A., was announced here today. The wedding will be performed in Hollywood some time this week.

To Aid Sanitarium
In aid of a building fund for a Jewish tuberculosis sanitarium, the Junior unit of the Jewish Tuberculosis Sanitarium of Massachusetts will conduct a dance June 12 at the Pirate Den, Ocean Pier, Revere Beach.

MELLO-GLO Prevents Shiny Nose
MELLO-GLO Face Powder is preferred by beautiful women because it leaves no trace of makeup, flatters and irritates. Stays on longer—no heavy noses—prevents large pores. Spreads more smoothly—gives a complexion that is very pure. Use MELLO-GLO Face Powder. It's wonderful.

MRS. POST REGAINED HEARING
AFTER PRAYERS AT SHRINE

Boston learned today through Billy Benedict writing in the New York Journal that back of Mrs. Edward Post's gift of her Newport villa to the Order of Carmelite nuns and her decision to withdraw completely from the world of fashion and devote the remainder of her life to a career of prayer and story as colorful and unusual as any originating in the ages of divinity and saint.

For the decision of the former social leader to forsake fashion, it is in which she was near a brilliant and commanding factor due to a miracle. A miracle wrought through the intercession of St. Theresa of Lisieux, famous as the "Little Flower" and who is recently canonized by the Roman Pontiff.

WAS ALWAYS RELIGIOUS
Some years ago Mrs. Post became ill. The malady did not yield to treatment and apparently the chainette of "Stoneline," in which Newport mansion she had presided over numerous exclusive social functions, was doomed to live in eternal silence.

Although Mrs. Post came of aristocratic birth and had since her debut as Miss Emilie Thorne King moved in ultra fashionable circles, she was never cast away by the frivolities of society. Of a retiring and thoughtful disposition, she found more pleasure in reading and contemplation than in the round of Newport festivities and was noted for her regular attendance at divine service and her practical Christian life.

HEARING RESTORED
Eventually she became interested in the story of the wonderful life of the young maid of Lisieux and after the signing of the Treaty of Versailles she made her home in that little French town, which is now known throughout the world. Her benefactions to the war-stricken France and the sufferers from the great conflict were numerous but known to few. Mrs. Post continued to live in Lisieux until the summer of 1928 when she returned to America.

Her hearing was restored and she attributed her cure to faith and prayer.

St. Lawrence Grads
Get Talkie Letter

New York, May 15 (AP)—A talking letter from Owen D. Young, is on its way to every alumnus of St. Lawrence University. Young's aims under the new scheme is an unbreakable phonograph record, containing Young's announcement of a plan to erect a new \$600,000 dormitory at Canton, N. Y.

Cardinal and 17
Martyrs Canonized
Vatican City, May 19 (1928)—The College of Cardinals, at a secret conclave today, voted favorably on the canonization of Cardinal Bellarmine, a distinguished theologian and writer, and the eight canonized Canadian martyrs, killed by Indians in the first half of the seventeenth century.

Miss Kosak Is Bride
of James S. Evans
Mrs. Anna M. Kosak of 372 Dorchester st., South Boston, was the bride today of James S. Evans of 187 E. 4th st., South Boston. The couple were married Sunday at 2 p. m. at St. Mary's Church, North End, by the Rev. W. Ussersiek and the attendance was on a honeymoon in Atlantic City.

2 level deeps, butter—1 oz.
2 cups sugar—1 lb.

Try This One Martha Sings for Salad

This week's 25 prize goes to Mrs. P. Broadbent of Riverside pl., Wat. Mass., for a reasonable and extremely tasty jellied crab and fruit salad. Modified individually or in a ring mold, garnished with lettuce and mayonnaise and served with crisp French fried potatoes, this jellied salad ring makes a perfect summer luncheon or supper salad.

CRABMEAT AND FRUIT JELLIED SALAD
Soak 3 cups granulated gelatin in $\frac{1}{2}$ cup of chicken stock or grape-fruit juice for 5 minutes, dissolve over hot water and add 1 tbsp. vinegar. Add slowly to $\frac{1}{2}$ cup of mayonnaise, blending thoroughly. Mix $\frac{1}{2}$ cup grape-fruit pulp, $\frac{1}{2}$ cup of canned pineapple and small cans of crushed banana, and then add to the firm mixture. Pack in greased moulds and chill. Remove from mould and garnish with lettuce leaves.

'CAT EYE ANNIE' FLEES PRISON

Auburn, N. Y., May 19 (AP)—"Cat Eye Annie"—Lillian McDowell, notorious burglar and one of the most elusive characters of the underworld when at liberty, escaped from the women's prison here during the night.
In her escape she cut down the wood around the lock in her door. Her cell was on the second floor. From there she went to the reception hall on the first floor where she took a topcoat and hat belonging to Warden Frank L. Hecox. Thus masquerading as a man, she fled.

In her previous escape here, with no tools but an iron window prop, a spoon and her bare hands, "Cat Eye" dug a hole through the cell brick wall and with a plank and a few nails and wire made a blanket rope to freedom.

Rear Admiral Foster Dies at Portsmouth

Portsmouth, N. H., May 19 (AP)—Rear Admiral Joseph Foster, U. S. N., retired, one of the few surviving officers of the old wooden navy, died at the Portsmouth Hospital. Death came in his 90th year. Entering the navy in October, 1861, he saw service in the South Atlantic blockading squadron during the Civil War. He was retired in 1902. He was on the fleet at Manila, Cebu and Cebu, and at Santa Domingo.

Santa Domingo Revolt Is Balked

Santa Domingo, May 19 (AP)—Government troops placed in strategic spots in the capital today to prevent demonstrations growing out of the arrest of Francisco Velasquez, who was opposition candidate for President in the campaign just ended.
Velasquez was taken into custody by 20 soldiers on charges of fomenting a revolution.

Presbyterians Lose 189 Pastors by Death

Philadelphia, May 19 (AP)—A report to the Presbyterian General Assembly of the Presbyterian church at Cincinnati May 30, state that 189 ministers of the denomination died during the past year and that their average age was 71 years. The oldest two were 95 and the youngest two were 40.

This Jellied Crab Salad Has Big Taste Appeal

Salad, like many of the accepted things of life, would be sorely missed if we didn't have it. Of course, you know that the lack of salt causes gastric and other gland disturbances chiefly because the iodine content is deficient in some constitutions. Salt in various forms is found in most of your food, and salt has many uses.

In addition to making your food more healthful and palatable, salt in the bath tub will refresh and take up tired muscles and skin. Salt on the neck keeps the collar clean, whitens, and keeps the skin hard. Salt sprinkled in the frying pan will prevent foods from sticking to the pan.

Flushing the criddle pan with salt keeps the pancakes from sticking and grease is not needed. Salt scattered on the carpet before sweeping helps to hold down and collect dust, and also keeps the colors bright and the moths away. Salt on your bathtub will keep it smooth and prevent sticking to the floor.

Bathers and folks who live in fishing hamlets are said to owe their sturdy hardiness to the salt air, which acts as a preservative on the system. Don't be afraid to use lots of salt. A little extra saltiness will make you drink more water, and when I can't remember to drink my quart a day I just eat salty crackers to remind myself. Salt eating and water drinking, remember, are said to promote long life.

Organize New Air Company

By GEORGE HANBLIN
With the removal of the Curtiss-Wright Flying Service from Westchester Airport in Westchester, comes the announcement that a group of local flyers have organized a new flying company, and have taken over the field.

Officers and directors of the Rhode Island Flying Service, as the new outfit will be called, are connected with the Denison Airport Operating Co. The new company, however, will not be connected with Denison in any way.

When the news of the removal of the Curtiss-Wright station from Westchester reached Denison, Clifford Burgess and Crane jumped into a ship and went down to Rhode Island. They decided that they could make a go of the field, and came back armed with statistics.

It was decided to form a separate corporation, under the laws of Rhode Island, at a meeting subsequent. On Saturday the contract for the field was signed, and the company elected.

Award Contracts for Three Ships

Contracts for three passenger and cargo ships for the United Fruit Co., parallel with the three awarded last week to Fore River Shipyards, Quincy, were granted today to the Newport News Shipbuilding and Drydock Co. at Newport News, Va.

The two awards total \$10,000,000 each and were granted under provisions of the Jones-White bill, the government advancing part of the cost in consideration of mail contracts between the United States, Central America and the West Indies. The contracts will require nearly two years for completion.

tenderly guarded

Sunshine Bakers skillfully defend the delicious taste and freshness of Cream Lunch Crackers by putting a sturdy wax-wrapper all around the big, economical, family caddy.

Normalizing Diet Calls for Milk Each Day

"Normalizing" is the new phrase used to describe those seeking to maintain a normal, healthy weight, whether they wish to increase or decrease their poundage. It's interesting to find that milk is featured in this type of diet both for the would-be-plump and the would-be-thin.

Whether you wish to gain or lose, the essential foods of the body must be met, and these are proteins, carbohydrates, fats, vitamins and minerals. Disting is really applied mathematics. If you wish to lose weight, less carbohydrates and fats, but don't omit the protective foods, dairy products, fresh fruits and vegetables. Instead of limiting yourself to any particular food, a well-balanced diet should be selected from the variety which nature provides. This diet should include all the vegetables, fruits, salads, whole-grain cereals, meat, milk, eggs, butter and cheese. For the would-be-thin, the daily calorie intake can be cut down to as little as 1200 calories, which results in a loss of about two pounds a week. For the would-be-plump, the daily calorie intake can be increased to as many as 3500 calories, which should result in a gain of two pounds a week. Eat butter.

Scamling. Sharkey's camp is at Orangeburg. New York City, for the heavyweight champion- ing routine.

advantage today as the Eagles have won three other games this week and Coach Hugh Duffy will be forced to use a lot of new players who did not pitched a game this year. The Eagles' offense will be forced to put out a lot of new players and unless Murphy can do the seemingly impossible by quietly leading the team to a victory, the team scored 59 runs in its last five games against such teams as E. C. Rutt, Jr., and New York University. Coach Williams' chances are that Coach Duffy will have to have several new players to lead the team to Boston University is looking for it in hopes on Lefty Lloja who has had a very good season in 1934. Today's game. The Eagles were the only team to knock out the Red Sox and this is a team that is anxious to even the score.

Piebard will be aided considerably by Del Picard behind the bat. Del has caught against Boston College and has a very good record in the line of the batters well.

This will be Piebard's last game and he will be going home to his home. He has hit safely in his last six times at bat and now has an average of .333. He is a very good player and the leading college hitters in the

Miss England was the first New England girl ever to win an Olympic medal, and the first New Englander since 1912 to capture an Olympic title.

In winning the 100-meter swim at Amsterdam, Miss Oswipwich established a new Olympic record of 1:13.45. She was also a member of the victorious relay team.

As runner-up to Martha Neuman, the 100 and 200-yard races at the national indoor meet at Chicago last year, Albina felt heir to the throne for those distances when Miss Neuman turned professional.

She did not, however, defend her title at Miami in March. Miss Chubbuck, however, won New England's 100 and 200-yard races at the sixth, 13th and 16th holes. The remainder were played in par.

Other scores follow:
Dr. O. F. Willing—132.
George W. Elm—134.
George Von Elm—147.

Prairie Wayside Army for Bread Line

Editor Boston American:

Prairie should be given to the Wayside Army, 75 West Concord St., this city, for feeding daily the hungry and unemployed men, who seek food at their headquarters.

The number has gone up to 140 daily. They get fish chowder some day. Then on other days, plenty of coffee, ham or bread. When I went in there the other day, I could not help but notice some men who were pretty well down at the heels.

There was a group that drew me into conversation with them and I found out that some were veterans of the World War. They came to this section of the country to get employment but failed. They were hopeful that they would get a job but when they saw it was not coming, they had to leave the Wayside Army. This organization has been very considerate of them. One fellow said upon leaving his scant meal "I'll not forget you fellows. If I ever get a job, you'll hear from me sure."

The army could do more, if they had more means, but I was assured that people are finding out the good work they are trying to do and responding.

SOMETHING TO THINK ABOUT

Editor Boston American:

The papers are reporting that the National Automobile Chamber of Commerce has started on a campaign of scrapping auto tires. There are about 400,000 of them.

This is a general safety movement to get rid of many machines that should be discarded as unreliable when in motion—and unfit for any kind of service.

Why not make a clean job of this scrapping business and begin with scrapping 400,000 drivers—or less?

Don't stop at auto!

HENRY MERRIAM.

were hanged or paid the penalty of death in Death Common, is far from the facts of the case.

I have taken the time for two weeks to look up this matter and so far have found evidence that the witches were unanswerably aligned on Boston Common.

According to historians of this early period, the Puritans regarded the hanging of witches, as a great failure in entertainment, for these were few and far between in their existence. If they had the radio or baseball games or even football or moving pictures, they would not have so fallen from grace in getting prepared out of tormenting and dispatching really innocent people who would now be consigned to the Psychopathic Hospital.

How times have changed. Who would care to be a Puritan today after knowing what a modern New England or Bostonian is.

R. N. MILLER.

Laids Mussolini for

Hailing Beauty Contents

Editor Boston American:

I regard the act of Mussolini, in putting a stop to beauty contests in his dominion, as one of the best strokes of international policies that have come to the surface.

Beauty contests in their aftermath breed more strife, spite, hatred, swear words, jealousy, frosty feelings, than any other display of beauty.

If you don't believe all this, just try a beauty contest around here.

B. N. BRODY.

Now Studying the

Influence of Odors

Editor Boston American:

It is either at Harvard laboratories or Columbia laboratories where they are studying by the

series of experiments, to find which odors arouse a certain kind of emotions and what perfumes may be designated as a love developer.

I have learned no results have been made known as yet, but the perfume manufacturer who is paying for these experiments will make them public. Any information of the kind will be acceptable to a perfume manufacturer who are interested in the influence of odors.

Why Not Applause for the Preacher?

Editor Boston American:

Some Boston churches are favoring applause, if the preacher makes a good hit in his sermon and the community Church in Symphony Hall, applause is not unusual. They are setting the pace for other liberal churches, the use of applause when incidents encourage it in the preaching or otherwise.

People in many churches say "Amen" or "Hallelujah" in Boston, especially in South End churches. This is given when approval is made of what is being done or said.

The promoters of applause assert that it is more pleasing and enthusiasm in applause and is most indicative. It is more general in its expression. There is nothing very thrilling about a solitary "Amen," being uttered in a church, but the united effort of people in giving applause cannot be over estimated, as a means of encouragement to the speaker or preacher.

B. N. MCARTHUR.

Thanks American for

Handling of Meeting

Editor Boston American:

The retiring officers and executive committee of the Massachusetts Dental Society wish to thank you and your paper for the amount of publicity given to the annual meeting and for the ethical matter in which it was presented.

Very truly yours,

PHILIP E. ADAMS,

Secretary.

Pity for Animals

but None for Humans

Editor Boston American:

Several days ago I was walking out of the Boston Common toward Scollay square. I had hardly left the Common when I noticed a squirrel on Park St. running around and probably looking for something to eat. At that instant a motorist stopped his car, went out of it, and chased the squirrel back into the Common, for fear that the squirrel might be run over by some other car. The man had a huge smile on his face.

Approaching Scollay square, I again took notice to the effect that a very elderly woman was crossing the street very slowly—which is undoubtedly natural in old folks. An approaching motorist had to stop his car (which he thought was burdened to do so) and wait until the lady crossed the street. But in his face there was the anger of a madman, or the temper of an idiot—because he had to wait a few seconds to let an elderly woman pass. He remarked to his friend, who sat next to him, in the following language:

"These damn old people belong on the sidewalk."

Well, these two incidents just described, illustrate what human nature is really made of—nothing but foolish and ignorant hatred for others. There is more pity shown by human beings to a squirrel than is given to an old helpless woman, one who probably served the world by being a mother, and doing all the heroic work that is attached to the duties of one.

In conclusion, let us hope that some day human beings will really act as humans, and "not another race of creatures bound on other journeys."

J. L. Rivers.

JENNEY CONCERT

WEEI

Every Sunday

Evening 8 to 9

Daylight Saving Time

The JENNEY GASOLINE Stations dotting the highways of eastern New England are operated with a sincerity of ideals, creative of JENNEY SERVICE. Whether you need Gasoline or not, the JENNEY Station attendant will willingly lend you a helping hand and extend the little courtesies and conveniences which make motoring a pleasure. That is JENNEY SERVICE.

Ask for a credit card and charge your requirements at any JENNEY Station. Itemized bills rendered monthly. To thousands of New England motorists Jenney Gasoline is known for its dependability and efficiency—improved engine performance—greater economy—that is why they "Stick to JENNEY."

The conveniences at JENNEY Stations are maintained in scrupulous cleanliness for your traveling comfort.

If you have a tank of your garage, phone us at 1000 HANCOCK ST. and let us fill it for you.

TOMORROW White's Thrift Basement TOMORROW

\$7 for 2 dresses
Or \$3.65 for 1
Splendid assortment of rayon creeps in pastels or darker colors. Sizes for women and misses. In the dress and house dress sections.

TOMORROW—the May Dollar Day in White's Thrift Basement! Read over the exciting value and fashion news in this advertisement. Get out your pencil and check the things you need! Then come in early tomorrow morning for there are hundreds of other values we haven't time to list here! Every item—from wee wee shoes to white coats, through transparent hats and summer curtains—is reasonable and priced at genuine savings to you! Mail and phone orders (Hubbard 7410) filled while quantities last.

\$1 for boys' pullover sweaters
Fairly standard patterns in wool and cotton sweaters for boys. Sizes 30 to 36. All colors.

\$1 for 2 boys' blouses or shirts
Broadcloth, madras and fine wash materials. Sport styles included. Sizes 8 to 14, 2 for \$1.

\$1 for misses' rayon tuckin pajamas
Without quilts, rayon in pajamas with applique, blouses, tuckin pajamas. Pajamas have the new slightly wider cut. Many colors.

\$1 for 2 undies of non-run chardonize rayon
Delustrated Chardonize rayon and lace trimmed-rayon. Vests, bloomers, chemises, slips in white, blue, pink, peach, maize. 2 for \$1.

\$1 for 3 fancy shorts for boys
Exactly like dad's! 3 button yokes and elastic backs. For Dollar Day. 3 for \$1.

\$5 for white coats with jabots and capes
All have the new fitted silhouette! Double breasted styles with big buttons! Trimmed with normal waist! Flat-fronted jabots! Sizes 14 to 20. \$5 each.

\$1 for tweed raincoats
Even the nicest of summers has rainy days! Here are raincoats in sizes for misses and women! All full cut. \$1 each.

\$3 for tweed or covert coats
Cotton tweeds, moires and coverts in popular blues, purples, greens, black and navy! Sizes 14 to 48. \$1 each.

\$1 for 3 pairs boys' golf socks
Smart patterns and colors. Durable cotton golf socks. For boys! 3 pairs for \$1.

\$1 for 3 union suits for boys
Athletic style union suits of fine quality pailmoot. Cool and comfortable. 3 for \$1.

\$1 for 2 overalls for boys
Heavy denim that wears like iron. All trimmed with red. Sizes 3 to 8. 2 for \$1.

\$1 for 2 pairs of boys' knickers
Wool and cotton knickers that are fully lined. In brown, grey, tan. 2 for \$1.

\$1 for 2 boys' wash suits
Sizes 3 to 8 in button on style wash suits. Unusually big assortment. 2 for \$1.

\$1 for 4 little boys' sunsuits
Irregular of a more expensive suit. These nice blouses, neck cut low in back.

\$1 a pair for satin or kid slippers
Kid slippers with heels, some pumps trimmed. Also quilted satin slippers a "hooray" heels. Sizes 3 to 8 in all colors. \$1 a pair.

\$1 for perle hemp, hair braid, felt hats
A remarkable collection of hats at \$1. Perle felt, imitation hairs with shell stitching! Perle braids in pastel. All smart styles! \$1.

The Big House

Five to Fifteen Years for Morgan--What Happened on a Wild New Year Eve

Robber

CHAPTER 1

One evening, some 28 months before the penitentiary gates opened before and closed behind Dean Ward Kent, there was admitted a good-looking young chap whose darkly passionate nature betrayed itself in the full, low tones of his voice and deep-set, brooding eyes; one who could be generous or vicious, proud or cruel, capable of loyalty, lechery, lechery or treachery.

He said his name was Duncan Morgan. Morgan had "tripped" over the river on a "garter," which means he was serving a third conviction under an indeterminate sentence. Five or fifteen years, the judge had decreed—a "stretch" because the convicts call a "lad," because most New York cars bear conspicuously their rates, and are known as "fifteen-and-fives." What portion of it Morgan would "do" depended on many factors: good behavior, outside drug, restoration of stolen money, how the judge and the prosecutor felt disposed on the day when they would be asked to sign an agreement for parole, and how the Prison Board of Pardon had enjoyed breakfast on the day when the petition reached them for decision and action.

Final Stage Hopes for Freedom

Morgan was eligible to a hearing for release with reservations after less than three and one-half years' incarceration. So he was in his final stage as a prisoner. There are three during the life of each term less than life or execution: First, the dumb, numb despair, the agonizing hopelessness; then the lethargic intermedium, when the man is hardened to the monotony and nonentity and brutality of the day-in-day-after routine; then the weary realization that most of it is behind, a faint ray of light ahead, the approach of release and sunshine and liberty and living.

Morgan was a robber. He had once been a bank clerk. At \$55 a month, with snappy habits and easy ways with women, he had need for quick cash. Beside him, in his cage, lay a loaded revolver. He had but to slip it into his pocket. His first "trick" was shamefully easy. A married man on his way home from a rendezvous with a girl—one step out of a dark doorway and the sharp bark, "Stick 'em up," had yielded Morgan several hundred dollars in currency and had cut half a dozen years of penitentiary life from the allotment of the petrified victim with his high blood pressure. Morgan was nailed a few months later. A flat-footed, round-headed "harness-bull"

a uniformed policeman—came upon him in the act and was too dumb to be afraid. They "settled" the young, gentlemanly chap lightly, as a first offender, for attempted robbery, because he hadn't been given time to complete the deed. No former robberies were faced against him. But he went up, and when he came down he was an ex-con, with a record, fingerprints and some advanced ideas.

Downfall How Morgan Got His

Any sap can be a holdup man. He can work alone and all the equipment he needs is a nickel-plated mail-order revolver that would probably burst in his hand if it ever went off, and a spot outside the range of the big street lights. But he takes his life and his liberty in his hands and risks all that on the chance that even if he gets by and gets away his gross profit may be very skinny. That type of marauder is regarded as a scavenger among self-respecting thieves.

Morgan had found that out when first he bragged to his buddies behind the walls and bars that he was a "robber." They let him in on what the word meant—one of a scientific band, which laid out big takes and never took chances where the price wasn't attractive—which blundered and surveyed and plotted the scene of a big payroll "touch" or a money-wagon haul, stationed his crew, prearranged its getaway, trained its members as experts along modern lines of specialized concentration and organized co-ordination.

Morgan knew where to hook up with such an outfit. It wasn't easy, for such gangs are meticulous, suspicious and exclusive. But his "front" was the feature that "sold" him. He would do as a "tail"—a contact man, an advance investigator, a worm-in who could land secrets about movements of loot. With his personality and appearance he was a perfect pick. He prospered until one of the gang, in a forbidden confidence to an infatuated dance-hall hostess, was whistled in the night, how clever and brave and wicked he was, and spilled the works. Of course, in time, he tired of her, and of course she told another girl; the other girl happened to be "stooling" for a police lieutenant, and Morgan and the whole "mob" were "trapped."

"In the Bag" But It Sounded Real

This time our handsome chap served more than two years. A clumsy slick on the first job he tried after he was out ran the machine smack into a milk-wagon, and the pursuing police had him again. This organization had "connections," and thus Morgan's "five to fifteen" was soft. It might as well have been five to fifty—the minimum was what counted; it meant that he could be free in 39 months, which meant he would be free in 39 months.

PUT HEAVY TAX ON RECKLESS DRIVERS

North End Children Forced to Play on Streets, Want Playground

Narrow streets, stone walls and rock covered vacant lot, are the only offering for play spots for North End children who live in the vicinity of Commercial, Foster and Henchman sts. We show

200 or more youngsters have for a little outdoor excitement. Then, of course, they have streets. Streets with fast-moving vehicles. The two girls you the rock covered vacant lot, the best place the

are tired of sitting on stone walls. These are just the type of fine Boston children that need play places, and for them the Massachusetts Child League is backing. (Staff photos.)

PEANUTTY IS PUT IN NEW INSURANCE MEASURE

Classification Plan Lifts Burden From Careful Auto-ists; Bill is Approved

First definite plans for classifying drivers under the compulsory motor vehicle liability insurance law according to their individual records was agreed upon today by the legislative committee on insurance in executive session.

Under this plan drivers with clean records, it is predicted, will get their insurance at a lower rate than those with a record of violations.

The bill will also exempt all drivers on the basis of their record of violations from the payment of a license fee.

Provisions are made for additional penalties for bad drivers, ranging from \$10 to \$50 per year, and for the removal of motor vehicles from the streets.

The bill also provides for the creation of a board of insurance commissioners, which will have the duty of supervising the insurance industry.

\$207,951 DEBT UP TO HOLDERS HULTMAN SITS AS COP JUDGE

Permission to assess polyholders \$207,951.67 was asked today by Alfred B. Shirley, receiver for the Bristol Mutual Liability Insurance Co., of New Bedford, in a petition to the State Supreme Court. The company was ordered into receivership last fall on orders of the insurance commissioner.

The receiver said the company had assets of \$207,951.67, of which \$70,000 is cash and the rest in bills receivable. He asked that the directors be ordered to vote the assessment.

"Don't Shoot" Lights Are Urged for Boston Cops

After a shower of suggestions from citizens regarding more methods, Commissioner Eugene C. Hultman revealed today that he is studying various phases of the service from signal systems to placing lights on patrolmen.

So-called "kitten" lights, for use in patrol boxes, where cops are busy elsewhere, will come under his study, he said.

The commissioner said that "burglars would hesitate to shoot" if they saw a "kitten" light.

NEW BATTLE STARTS OVER GOVERNOR SQUARE TRAFFIC TANGLE

TUNNEL BILL APPEARS DOOMED

Cheekers Show 40,000 Autos Pass Through the District in Day; Relief Needed

The bill for a tunnel under Governor Square, which has been introduced in the House, appears to be doomed. It is believed that the bill will not pass the House, and that the tunnel will not be built. The bill was introduced by Representative Charles W. Clark, of Boston. It provides for a tunnel under Governor Square, which is one of the busiest thoroughfares in the city. The tunnel is to be built at a cost of \$1,000,000. It is to be 1,000 feet long and 20 feet wide. It is to be built by the Commonwealth of Massachusetts. The bill was introduced in the House on May 15. It has not yet been heard of in the Senate.

15 MINUTE DELAYS

But by how heavy traveled thoroughfares, the minutes become a hope as tangled as those with motorists and pedestrians head up for long periods.

Thru by a Boston Evening American reporter, delays have been reported in the bill to build a tunnel under Governor Square. The bill is now in the hands of the Senate. It is believed that the bill will not pass the Senate, and that the tunnel will not be built.

PROGRESS HALTED

Handling over the methods of payment for the project has delayed the bill, and up to a few weeks ago was a hopeless muddle.

A bill of rights was introduced by Senator Curley and Governor Allen. It was intended to give the city a right of way over the tunnel. It was intended to give the city a right of way over the tunnel. It was intended to give the city a right of way over the tunnel.

Here's the Daily Traffic Maze at Governor's Sq.

Haggling over methods of financing may cause the death of the bill now pending before the Legislature to provide for a tunnel extension under Governor Sq. Fed by five heavily traveled thoroughfares, the square becomes a hopeless tangle at times, with motorists and pedestrians held up for long periods. All experts have agreed that the elimination of street cars at this point would help to relieve congestion. A recent count showed an average of 40,000 autos passing through the square each day. (Staff photo.)

Noted Engineer Performs Amazing Feats by Radio

A program of interesting experiments in radio remote control of motive and other forms of power began today at the Franklin Institute. The experiments will be performed by Maurice J. Francill, a noted engineer and inventor.

Francill, by wireless control, will operate three standard, stock model automobiles without driver or touch of human hand. He also will operate a miniature battleship, a motor boat, and a motor car. He will also operate a motor car. He will also operate a motor car.

Francill, in addition, will make a real live cow by radio control and other other wonders. The experiments will be performed by Maurice J. Francill, a noted engineer and inventor.

It is planned for him further to take bread and cheese on even by radio control, to visualize the radio home of the future, from which he says all likable tool will be banished to run a radio, without motor cars or conductors to control the huge printing press of the Boston American and other other exhibitions of the skill of the radio wizard.

Francill is being brought to the city by the Boston American and other other exhibitions of the skill of the radio wizard. The experiments will be performed by Maurice J. Francill, a noted engineer and inventor.

During his stay here, he will at the famous vaudeville attraction of the Scollay Square Olympia Theater. At each performance during his seven-day engagement he will give a series of amazing feats of radio control.

The automobiles Francill will use will be Hudson and Essex cars supplied through courtesy of the Essex-Kimball Co., 692 Beacon Street. Francill will also use a motor car. He will also use a motor car.

Francill selected Hudson Essex cars because of ease and flexibility of engine, movement, and other mechanical refinements. The experiments will be performed by Maurice J. Francill, a noted engineer and inventor.

By radio control, the wizard will perform virtually every operation of the automobiles that chauffeurs could accomplish. Yet there will be no one in the cars. The machines will be selected at random from the showrooms of the Essex-Kimball Company and will be sent to the street of Boston.

What Francill accomplishes with the cars he uses he can do with any other machine of his making, because all Hudson and Essex cars are made on the same principle. The experiments will be performed by Maurice J. Francill, a noted engineer and inventor.

Francill will give 22 demonstrations of the operation of the radio controlled automobile. The experiments will be performed by Maurice J. Francill, a noted engineer and inventor.

Three of these exhibitions will be given each day on the steps of the Scollay Square Olympia Theater. He will use his Boston chauffeur with a big free exhibition of the radio controlled automobile. The experiments will be performed by Maurice J. Francill, a noted engineer and inventor.

Francill will give 22 demonstrations of the operation of the radio controlled automobile. The experiments will be performed by Maurice J. Francill, a noted engineer and inventor.

Francill will give 22 demonstrations of the operation of the radio controlled automobile. The experiments will be performed by Maurice J. Francill, a noted engineer and inventor.

UNITARIAN HEAD HITS DRY LAW AS CRIME AID

Prof. Randall Tells the Boston Conference It Is an Ally to Evil Doing

Prohibition, at its best, is an irrational and unintelligent compulsion to refrain from what does us harm.

At its worst, it is an incitement to hypocrisy, crime and the antiquated philosophy of personal liberty in all things.

These statements were made today by Prof. John H. Randall, Jr., of Columbia University, before a joint meeting of the Unitarian Temperance Society and the Unitarian Fellowship for Social Justice, held in the Old South Meeting House.

The gathering was one of many held today in connection with the 105th annual meeting of the American Unitarian Association and associated organizations, with several hundred delegates present from all parts of the world.

Below to INTELLIGENCE Prof. Randall in his talk asserted that "the establishment of prohibition cannot be regarded as a legal enactment that has settled the matter of personal freedom once and for all."

"Like any measure of freedom, prohibition is a continual challenge to social intelligence, a problem to be worked out and solved."

"The real problem of making it effective is not the mere finding of honest and efficient machinery of enforcement. It is a work of education, of informing and enlightening public opinion."

"Until that work is actually undertaken, prohibition will remain, for large groups of men, what it is for them today, namely, it is at its best an irrational and unintelligent compulsion to refrain from what does us harm, and at its worst an incitement to hypocrisy, crime and the antiquated philosophy of personal liberty in all things."

"It is not enough to enact a law and enforce it. Those devoted to the idea of liberal religion should take the lead in making prohibition an instrument of genuine freedom."

"The Yankee home run swatter will auction a dozen autographed baseballs and then aid with members of the Red Sox team in taking up funds for the widow Jackson, Dorchester."

A doctored hand from Dorchester Post, V. F. W., is also scheduled to appear. In addition to the fund of \$20,000 for the widow Jackson, the fund of \$100,000 for the widow Jackson, the fund of \$100,000 for the widow Jackson.

The day's business session opened with a meeting of the council of the Unitarian Laymen's League at 10 Beacon st., which was followed by the annual public meeting of the Massachusetts Council on Child Welfare at the Old South Meeting House.

In Holland Place Church was held the annual meeting of the Unitarian Ministers' Group. Prof. Hocking, in his address, discussed two types of gods according to the present time, one being the god of the abstract ideal, which he characterized as "a sort of blanket substitute for God which is better, perhaps, than no god at all."

Then there are, he said, the gods of humanity, of science, of art, of industry, which he characterized as "a sort of blanket substitute for God which is better, perhaps, than no god at all."

At the King's Chapel meeting, Dr. Henry Hudson Sanderson, editor of the Boston Herald, spoke on "The Inheritance from the Puritans." Dr. William E. Gilroy, editor of the Congressional Record, spoke on "The Inheritance from the Puritans."

From World's Far Corners

From all corners of the world came prominent churchmen to attend the 105th annual meeting of the American Unitarian Association in session here. Rev. Ezra Lorine of Pennsylvania and Rev. E. Subbuhksharia of India, two of the visiting churchmen, are shown above.

With a meeting of the council of the Unitarian Laymen's League at 10 Beacon st., which was followed by the annual public meeting of the Massachusetts Council on Child Welfare at the Old South Meeting House.

HOW MEMORABLE WILL be the scenes when we're sitting in the cinema. Queer, isn't it? Here, out of the past, into the minds eye, come the faces of the past. For so often early scenes that this picture, "Lilies of the Field," was her stage vehicle eight or nine years ago. There, on the screen, the figure of the equally charming Corine Griffith, now perhaps making her last screen appearance for some little while to come. There is memory, of course, of how this law was won to top the list of favorites in the silent days, and memory of what the talkies have, alas! done to her fame and film fortune.

Gong Please

SALLY O'NEIL
"HOLD EVERYTHING" at the Uptown and Washington Street, O'Neil in a snappy part

PARK OFFERS SMART FILM

A diminutive actress with a great deal of ability and a most appealing, vivacious disposition, the French actress, now at the Park, is the latest addition to the list of favorites in the silent days. Her name is Sally O'Neil, and she is a most talented actress. Her name is Sally O'Neil, and she is a most talented actress. Her name is Sally O'Neil, and she is a most talented actress.

'ARIZONA KID' FILM OF OPEN SPACES

It does look as if the Westerns will have the last of showing the talkies how to win back some of the motion picture values that fell by the wayside when the silent drama "passed out." "The Arizona Kid," now at the open spaces, though by no means a new movie, has captured a new audience, and it is doing so through the superb supervision it had in production. It is the point of having the picture made of exciting action, and of being generally interesting. This is done in large part to the work of Alfred Russell, the director. He gets up speed early and keeps on the move, his camera sweeping and swinging as they used to do in the days of the silent play. It is often said that the picture is a masterpiece of the silent era. It is a masterpiece of the silent era. It is a masterpiece of the silent era.

MARY NOLAN TOPLAY LEAD IN FILM

By LOUISE O. PARSONS
Motion Picture Editor, Universal
Copyright, 1929, by Universal
Los Angeles, Calif., May 18.—Mary Nolan, the actress who played the lead in "The Arizona Kid," now at the open spaces, though by no means a new movie, has captured a new audience, and it is doing so through the superb supervision it had in production. It is the point of having the picture made of exciting action, and of being generally interesting. This is done in large part to the work of Alfred Russell, the director. He gets up speed early and keeps on the move, his camera sweeping and swinging as they used to do in the days of the silent play. It is often said that the picture is a masterpiece of the silent era. It is a masterpiece of the silent era. It is a masterpiece of the silent era.

Words of Love

ELEANOR BOARDMAN AND JOHN GILBERT
These two favorites are once again on the Orpheum screen, this week, their vehicle being "Redemption"

EVELYN BRENT KEITH-ALBEE FEATURE

Score another success for Evelyn Brent. Of course, it just has to be again a crook role, but this time the young actress seems unable to get opportunity to do much else but be the villainess of the hour. "Framed," film of the underworld, now on the Keith-Albee screen. Miss Brent is the daughter of a slain racketeer and she decides to get revenge upon the police. A police captain's son falls in love with her; and she decides to get back at the police she hates. But it all ends happily enough. The one role is that of Regis Toomey, a clever actor. Other players are Earl Harold, Maurice Black, William Holden, Robert O'Connor and Eddie Kane. For stage entertainment RKO presents "Framed," William Wallace, a "vaudeville's favorite buffoon." "Framed" is probably the best description of him since he reports to every act of artistic buffoonery to amuse a supply of plain and fancy laughs. In his comedy roles, he is assisted by Doris Dwyer, Ronald Bruce, and a host of other players. Another feature, aha! here is the one again on the Orpheum screen, this week, their vehicle being "Redemption."

NEW YORK STOCKS AMERICAN MARKETS

Sales today (185) 2,385,400 shares. Year ago, 1,340,000 1930 to date, 394,735,000 1929 to date, 43,444,400 1928 to date, 1,018,000

SEEKING HEAVY LAST HOUR OF MARKET

New York, May 19.—Stocks traded in Wall St. was decidedly sluggish today. The market appeared to be in a state of indecision, with a general feeling of uncertainty prevailing. The market was characterized by a lack of direction, with prices generally flat or slightly lower. The volume of trading was moderate, and the market was not particularly active in the early hours of the day.

Business and trade reports were mixed, with some optimism but also some concern over the economic outlook. The market was influenced by a variety of factors, including the results of recent earnings reports and the overall state of the economy. The market was characterized by a lack of direction, with prices generally flat or slightly lower.

Such recent strong sales as the Automobile, Farm Implement, and other industries, which had been expected to be a factor in the market's recovery, were not sufficient to overcome the general pessimism. The market was characterized by a lack of direction, with prices generally flat or slightly lower.

Interest in the formal setting up of the new bank in connection with the proposed merger of the two banks was a topic of discussion. The market was characterized by a lack of direction, with prices generally flat or slightly lower.

Business gain unimpaired. Business and industrial reports were generally favorable, with many companies reporting strong earnings. The market was characterized by a lack of direction, with prices generally flat or slightly lower.

The bears made an early effort to unsettle the market by selling the industrial and utility stocks. The market was characterized by a lack of direction, with prices generally flat or slightly lower.

Recovery was recovered for a time, but the market was not able to sustain its gains. The market was characterized by a lack of direction, with prices generally flat or slightly lower.

The bears sprang a surprise attack in the final hour, leading to a sharp decline in prices. The market was characterized by a lack of direction, with prices generally flat or slightly lower.

Completion of the Treasury Department's note sale was reflected in a better demand for listed Liberty Bonds and Treasury Bonds. The market was characterized by a lack of direction, with prices generally flat or slightly lower.

Confidence, here and there, and in other commodities were again dragged down, while cotton and grain were a better section of the day's action. The market was characterized by a lack of direction, with prices generally flat or slightly lower.

RAILROADS DRAW NOTICE OF WALL ST.

By FRANK H. MELOAN
Railroad merger plans in New England appear as dead as the proverbial dead nail, with widespread opposition to Interstate Commerce Commission and other suggestions that merge the railroads into one system. The carriers drew the notice of the Interstate Commerce Commission, which was a significant development in the ongoing discussions about the future of the railroads.

J. C. Penney, Walker & Wyman, Wall Street, says that the negative attitude of the Interstate Commerce Commission is a major obstacle to the merger. The carriers drew the notice of the Interstate Commerce Commission, which was a significant development in the ongoing discussions about the future of the railroads.

The proposed merger of the Northern Pacific and Great Northern railroads is a topic of discussion. The market was characterized by a lack of direction, with prices generally flat or slightly lower.

One of the big "Ten Cent" stocks, the Northern Pacific, is a topic of discussion. The market was characterized by a lack of direction, with prices generally flat or slightly lower.

Standing at the top of the V, the market is a topic of discussion. The market was characterized by a lack of direction, with prices generally flat or slightly lower.

Paul Johnson, prominent Wall Street operator, whose funeral services were held today, is a topic of discussion. The market was characterized by a lack of direction, with prices generally flat or slightly lower.

Yaman's financial report, which shows a significant improvement in the production of leading activities, is a topic of discussion. The market was characterized by a lack of direction, with prices generally flat or slightly lower.

(Photo by Bachrach)

"All of these things place us at a disadvantage, but despite such handicaps we have more than 12 million depositors and about five billion dollars of deposits. And it is for our depositors that we speak in making an extension of our usefulness."

Hoguet is vice-president of the Emigrant Industrial Savings Bank of New York.

Highlights of Market

New European loans amounting to \$753,500,000, including German annuities issue, are reported under negotiation, according to Dr. Max Winkler, vice-president of Bertrons Grismco & Co. Said American investors will be expected to take up about \$368,500,000 of total.

With Steel remaining dull and fluctuating within the narrowest range, there is no way of learning the market attitude of the most powerful bankers, unless, of course, they are utilizing another of their favorites. But none of the Morgan-First National stocks, except Case, have been doing much marketwise.

Movements in Celotex stock seem to reflect more the activities in court than in the more vital and permanent influence of earnings. If granted publicly were given to operations and actual profits, a more reliable index to the stock's value would be created.

The management's aim is obviously to lessen the company's dependence upon its coal and iron business for profits.

"We have selected the aviation industry as one of the eight industries which give definite promise of earning more for representative stocks than was earned in 1929. We stress the fact that we own the best stocks representing this industry must be classed as speculative. This should not deter accumulation."

Admiral Jones Tells the Truth About Naval Pact

Treaty Cannot Now Be Ratified Under False Pretences

It was to be expected that the Committee on Foreign Relations would get from the great-grandson of John Marshall the truth, the whole truth and nothing but the truth about the London naval treaty.

And as a witness before that committee, Admiral Hilarious Jones has not only fulfilled its expectation but splendidly maintained the noble traditions of his distinguished ancestor.

Admiral Jones went to the London conference, not as a United States representative, not as an errand boy, not as a United States "man, too," not as a candidate for promotion, but as a naval adviser for the American delegation who dared at all times to advise as his conscience dictated and his convictions required.

Public sentiment forced the appointment of Admiral Jones and that is why the administration sent him.

But from the beginning of the conference until its close, the American delegation, following the example of the administration, turned a deaf ear to the advice and counsel and argument and warning of the naval statesmen when President Coolidge sent to Geneva as a delegate and not only sustained but commended in every position which the admiral took at that conference.

And now as a witness before the Committee on Foreign Relations, Admiral Jones has repeated the advice and counsel and argument and warning concerning the London treaty which the President and the American delegation completely ignored.

Admiral Jones says the London naval treaty:

Flouts the preponderant opinion of the American Navy which favors eight-inch gun cruisers as best suited to American needs.

Gives Japan a relative 5-5 plus naval ratio instead of the 3-3 ratio laid down at the Washington conference.

Surrenders America's established naval limitation policy.

So "freezes" American naval tonnage that the United States, if the treaty is ratified, will enter the next conference in 1935 at a grave disadvantage.

Permits unlimited tonnage in a class of 2000-ton ships to the enormous advantage of Great Britain and Japan.

Increases Great Britain's relative power by forcing the United States to build six-inch gun cruisers in the face of preponderant naval opinion in this country that eight-inch gun cruisers are better suited to America's defense needs.

And forbids the building by the United States even of the full allotment of 18 eight-inch gun cruisers until after the treaty has expired in 1935.

Whatever effect the testimony of Admiral Jones may have upon the final disposition of the treaty by the Senate, his testimony has at least made it impossible for that body to be misled under false pretences.

No Senator in Congress can advise and consent to the ratification of that treaty now, in the light of the testimony of Admiral Jones, without spurning the administration and its delegates to London by preferring British naval authority to the highest American naval authority as to what constitutes an American Navy best suited to America's needs.

Nations of World Unite in Fighting New Tariff

Canada, which is now the best customer of this country among all the nations with which this country trades, is evidently not going to take the blow aimed at the Canadian people by the Smoot-Hawley tariff bill without hitting back.

According to a report to the Department of Commerce at Washington, Canada intends to retaliate by the passage of a new tariff bill which will increase Canadian duties upon American imports by at least two hundred and twenty-five millions of dollars.

Iron and steel products from the United States, machinery, fruits and vegetables will be hardest hit by Canada's new tariff. Preference will be given to British Empire goods and duties raised against American products.

No secret is made by the Canadians of the fact that Canada and the United States are about to engage in a bitter tariff war. Sir J. H. Woods, the president of the Canadian Chamber of Commerce, said as much to the Halifax Board of Trade in a recent speech.

The Canadians contend that the Smoot-Hawley bill for exportation will cut Canada's exports to this country by at least seventy-five millions of dollars, in spite of the fact that Canada is now buying annually from the United States products totaling eight hundred millions of dollars.

And Canada is not the only foreign country that is preparing to defend itself against the extortionate schedules of the Smoot-Hawley bill by giving blow for blow.

Great Britain, France, Switzerland, Germany and Argentina are among the other customers of this country that are making it perfectly clear that they will not take the challenges of the Smoot-Hawley bill "lying down."

Ample warning has been given the Republican Congress and the Republican President of the damage to domestic prosperity, foreign commerce and international relations which will be inflicted by the passage of the most outrageous tariff bill that has ever threatened the American people.

Ample opportunity has been afforded the Republican Congress to purge this tariff bill of its most flagrant schedules.

Ample opportunity will be afforded the Republican President to save the American people from this robber tariff by a veto.

IT IS THE REPUBLICAN CONGRESS AND THE REPUBLICAN PRESIDENT THAT THE AMERICAN PEOPLE WILL HAVE AMPLE CAUSE TO BLAME IF GOOD RELATIONS WITH FOREIGN NATIONS ARE IMPAIRED, FOREIGN COMMERCE DEMORALIZED, AND DOMESTIC PROSPERITY DESTROYED BY THE TARIFF WHICH WILL PASS THE PASSAGE OF THE SMOOT-HAWLEY BILL WOULD IMPOSE.

Family Tree

H. G. Wells Writes

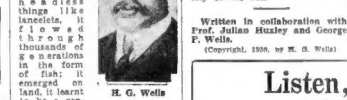

ON "THE SCIENCE OF LIFE"

(Continued from Saturday)

That same stream in the dawn of life on earth manifested itself in the form of single microscopic cells; hundreds of millions of years later, after transference of matter, the stream of life was a stream of polyps, of wormlike creatures, of jellyfish, of lancelets, of fish, of amphibians, of reptiles, of birds, of mammals, of man.

Written in collaboration with Prof. John Huxley and George F. Wells.

(Copyright, 1930, by H. G. Wells)

H. G. Wells

Still without break of continuity, it transformed itself into a stream of fully mammalian life, its young to grow as parasites upon its life. Four-footed, tailed and hairy, it took to the Eocene forests, it grew into lemur, into monkey, into ape, and man-ape grew to man.

It that selfsame stream of life that flows through our human generations and that we call man was once fish, and if those fishy ancestors could be transformed into our present selves in 300 million years, without the aid of conscious purpose in any of the pre-human forebears, who shall prophesy what our race may not achieve and into what it may pass after that period in the history of life on earth has passed?

To grasp the full implications of this estimate of available time is to realize that we are still only in the dawn of consciousness and that all human will and wisdom has ever done is in no more than an augury of what may yet achieve.

Evolution presents itself as an accelerating process, gathering momentum and hardly yet beyond the beginning of its revolutions.

BOOK IV
CHAPTER ONE
Essence of Contradictions About Evolution

1. The Chief Theories of Evolution

In Book 3 we dwelt with facts beyond any reasonable controversy. Life, we have shown, has appeared not multitudinously and again and again in the world, but at one particular stage in our planet in history, and from that one beginning it has developed like a branching tree. It has not been multitudinously and repeated-

The Dentist in the Jungle

New York Day by Day

By O. O. MCINTYRE

New York, May 13.—Dinner of Shanghai, to Larus for dinner. And to see "Young Binkers," a mildly amusing travesty of the younger generation, and then walking Stuart to his hotel taking with him when we lived in Plattsburg road in Maine.

Chorus men are listed in a musical play program as "Singing and Dancing Boys."

In some theaters the press agent posts on the back stage bulletin board the names of celebrities in the audience. This often inspires playful defiance, and back to the Margery for a tasty repast, including crepe Suzette.

This day starts my 17th year of writing a daily column about New York and its people and, while I have but a few dollars of my own, have provided modest competency for my wife, who deserves it. And enduring me through 22 years of marriage is a study in tolerance.

In the evening with the Ed Nolan, Nellie Huxley and Stuart.

Personal nomination for the prettiest girl in a theatrical cast this season—Pam Lambier in "Fifty Million Frenchmen."

An auspicious first night is not considered quite complete without including Mayor Walker, Paul Block, Sailing Barch, Neysa McMein, E. D. Collins, Herbert Bay and Swops, Al Smith, Mrs. Julius Walsh, Cholly Knickerbocker, William McElroy and the Frank V. Gurne.

One of the most persistent first-night patrons is the immaculately attired Aaron Reuben, whose delicate salons are among the haunts of theatrical folk after curtain fall.

Perhaps the most representative New York audience ever collected in a theater attended the special invitation performance of "Show Boat" for the guest of honor—Charles Lindbergh. Each was especially invited and, everybody watched the lone eagle instead of the show.

It is the custom of most producers to hold out from four to six seats among the first rows nightly for sudden emergencies. These are held until 10 minutes of the show and not used until a box office. That is why a late and casual customer often finds himself holder of the best seats in the house.

Electric air travel sign a few steps off Broadway: "Take to the air like birds and five pieces." It sounds positively unappealing to us.

"In one of our banking-book," writes W. S. P., "I'd like to join you in a good cry out loud in times of the passing of the old-time mired with the Low Deckers, Honey Boy Evanson, Nellie Huxley and Stuart."

Since I hopped on the wagon I don't care out loud publicly any more. But I'll go into a huddle with you for a few suppressed sniffs in private.

Russia Fights All Religions

The Number of Them May Keep the Bolsheviks Busy

Another Russian Anti-Religion Propaganda Cartoon

The Russian Government, using pictures and brief lettering to reach more easily the minds of the ignorant masses, continues with extraordinary energy its crusade against religion—ALL RELIGIONS.

One gigantic poster, even more startling than the one published above, attacks in detail religions of all kinds. In one picture are shown the tombs of the "dead gods." Zeus, god of the Greeks; Agni, god of the Indians; Perun, god of the Slavs, and Mitra, god of the Persians.

Another picture in the blasphemous cartoons with which it is thought to turn the deeply religious Russians from their faith shows the capitalist in a gorgeous car drawn by working people lashed onward by Buddha, Confucius and Jehovah.

The picture above, widely published in Russia, is intended to convince the Russian peasants that Christianity is used as a bait behind the spider-web of capitalism.

Capitalism is the huge fat spider drawing the workers into his web.

The writing attached to the cartoon by the Russian authorities represents Jesus as warning the workers against the capitalist spider and inviting them to come directly to Him for help. The following is an extract from the writings on this cartoon:

"Come unto Me all ye that are troubled and heavy laden and I will give you rest. You, my dear little Musiks, brothers in Christ."

"You have already turned away from your greedy priests who enticed you with icons and services. Come now to Me. I am the true Christ, the living God. Bow before the Lord in the spirit of truth and there shall be agreement between us."

Christendom. If any of you have not a plough, a rake or a horse, take from Me; we will settle later. According to God, I will put on interest from one with money, from one with grain, from one with his pay. We are all brothers in Christ."

Then follows the warning: "The old church blinded and fooled the workers in order that they might bear without grumbling the burden of the capitalist. The new and living Christ, Jesus, will give you rest. You, my dear little Musiks, brothers in Christ."

"You yourselves can easily verify this. Look who controls everything in the non-conformist communities. You must leave religion altogether. For faith in God—that is, every kind of religion—is one of the instruments of class bondage."

"The workers must unite their strength in co-operation, cartels, committees of mutual help. By the way will conquer, will forever undermine religion, and will take the true road to Communism."

What will be the result of this systematic and persistent attempt to undermine the confidence of the Russians in ALL religions cannot now be predicted, especially as regards the young growing up in such influences.

It is, however, certain that those of mature age turn from the blasphemous propaganda with horror. They will not accept the atheist theories of a new government in place of their childhood faith.

It is fortunate for all of the religions, probably, that Russian power attacks other ALL.

It draws the members of the different faiths closer together. It unites Mohammedans, Orthodox Greeks, Catholics, Nonconformists, Protestants, Buddhists and others against the savage onslaughts.

What Do You Know?

BOSTON'S ORIGINAL KNOWLEDGE TEST

Match correctly:

1-red genuine
2-blue authentic
3-verily vermillion
4-tariff germ
5-microbe alarm

Do you know:

6-Why is breathing necessary?
7-What is hard water?
8-What was the name of Don Quixote's mare?
9-Who said:
"Hail ye heroes! heaven born band!"
10-How far does a ship sink as it floats?

Fill each blank:

11-We see objects which are—
12-A maulina is a Polish—
13-Absence makes the—grow fonder.
14-A metronome is an instrument for marking—
15— is the most northerly of all inhabited lands.

Answers to Saturday's tests:

1-Closed. 2-Chess. 3-Monkey. 4-Puller. 5-Harlequin. 6-Rude. 7-Wander. 8-Dejection. 9-Lansy. 10-Remembrance. 11-Very tiny plants. 12-One cleared from anything offensive. 13-A mixture of gas and air. 14-Rose bud. 15-Decoration Day.
